D200 Series

GENERAL FEATURES

The D200 series is the latest addition to our range of POU water coolers. With its elegant satin finish, the D200 is sure to add a touch of class to any home or office.

COLD TANK: Huge 11 litre high density polypropylene tank. The tank is tough, rustproof and is easy to clean with its large radius.

HOT TANK: 1.6 litre type 304 stainless steel with 500 watt sheathed heater ensures temperature control. On/ off switch is easily accessible at the back of the unit.

CABINET: Satin black or white. Top and front panels are moulded UV treated ABS. Zinc coated steel side panels.

TAPS: NSF approved and hygienic durable polypropylene push taps with self-closing design and fast flow. Hot safety tap comes as standard on hot/cold model.

FLOAT ASSEMBLY: Dual float system maintains the water level and shuts water off when tank is full.

OPTIONAL EXTRAS

PNP FILTER SYSTEM: The WA WATER FILTER'S PNP filter range is available in single, twin or triple. With the swing & twist design and automatic water shutoff, filter changes are simple, no need for tools or to turn off the mains water.

CD WHITE OR BLACK: Our cup dispensers come in black or white to match either colour unit. WA WATER FILTERS' paper & plastic cups are designed to fit our dispensers.

SPECIFICATIONS

REFRIGERATION: Gas R134A. The refrigerant flow is controlled by a capillary tube which has no moving parts. The compressor is hermetically sealed with an automatic overload protector. Lubricant is not needed.

ELECTRICAL: Certificate number 160793. 220v 50hz single phase. A 1.5 metre power cord is supplied. Full load current is 1.2 amps.

CONDENSER: Quietly operating, air cooled with no moving parts.

PERFORMANCE

Tap 1 Approx. 4-10°C
Tap 2 Room Temperature
Hot tap Approx. 84-89°C

CAPACITY

ROOM TEMP °C	21	27	32
