

WaterMark

Certificate No.: 23448
AS/NZS 3497:1998

5 YEARS WARRANTY

Components are Tested and Certified by NSF International under NSF/ANSI Standard 42 for material requirements only.

SPECIFICATIONS

Operating Pressure: 240-600 kPa
Operating Temperature: 5-35°C
Connects To: 1/2" Cold Water Line
Membrane Flow Rate: 16 L/h
System Outflow Rate: 3 LPM

AquaCo Reverse Osmosis System

\$799

Reduction Claim

Sediments, Sand, Silt & Dirt	✓
Total Chlorine (FC, CC, TC)	✓
Pesticides & Herbicides	✓

430 H x 360 W x 200 D mm

System includes a 12 L Reverse Osmosis Tank, which holds 8 Litres.
12 L Tank Dimensions: 244 D x 366 H mm

The tank fills up with water coming from the membrane at a flow rate of 16 L/h* dependant on water pressure. This tank allows you to have up to 150 litres of water instantly* dependant on tank capacity.

If a higher capacity is required, you can upgrade your 12 L Tank to a 18 L Tank for only \$50.
18 L Tank Dimensions: 279 D x 368 H mm

5 Filtration Stages

1st Stage: Sediment Filter. 100% Polypropylene Triple Gradient Sediment Filter. Captures sand, dirt, algae, silt, mud and particles greater than 1 micron. Tested and Certified by NSF International under NSF/ANSI Standard 42 for material requirements only.

2nd Stage & 4th Stage: Drop In Carbon Filters. Coconut Shell Activated Carbon Media. Removes Chlorine Taste and Odour, and VOCs. Protects the membrane. Removes THMs, TCEs, Pesticides, Disinfectants and other Organic Pollutants. Tested and Certified by NSF International under NSF/ANSI Standard 42 for material requirements only.

3rd Stage: Reverse Osmosis Membrane. Ultrafine Membrane. Removes ions, heavy metals, endotoxins, microcystins. The pore size is less than 0.0005 micron (human hair is 70 microns). Certified by NSF International against NSF/ANSI Standard 58 for material requirements only for safe use in drinking water applications.

5th Stage: Alkalising Mineralising Filter. Restores the natural alkalinity and mineral balance of water. Adds Calcium, Magnesium and Potassium. Successfully raises pH levels (Resulting pH >9) along with producing antioxidant and oxygenating qualities.

\$147

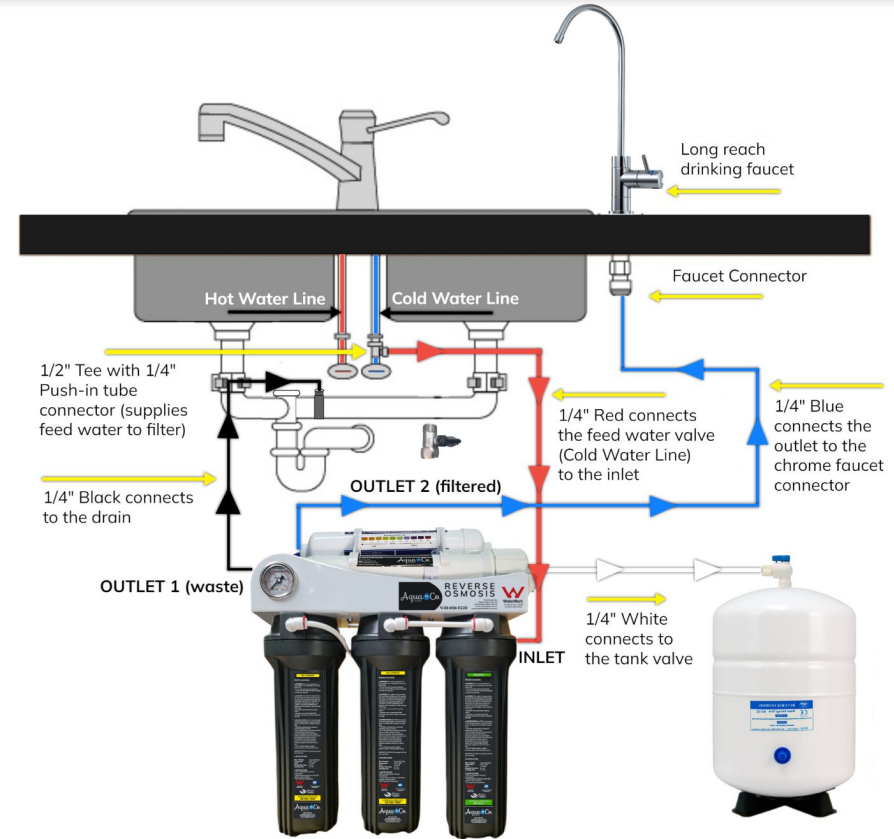

INSTALLATION

If drilling through stone is required, an extra \$50 will be charged for the diamond drill bit and insurance fee.

Our systems are installed under your existing kitchen bench and are supplied with a chrome faucet for your filtered drinking water.

If height is an issue, the system and tank can go laying down.

AquaCo Replacement Filters Bundle

\$70 Call-Out Fee.

TECHNICIAN SERVICE

Note: Technician Service is only available for Perth Region*.

1st Service	2nd Service	3rd Service
\$110	\$195	\$195

Note: Filters are recommended to be replaced every year. However, not all filters are replaced at once. This is because each filter has a different life span.
