### Replacement Filters Bundle

To ensure optimal performance and hygiene and to prevent build up of contaminants, we recommend that filters are not used any longer than 12 months.

However, replacement frequency depends on water quality and usage. Filters should also be changed when rated capacity is reached, or when flow becomes too slow.

CHOICE OF FILTERS

**Twin Undersink with Sediment and Ceramic**

## \$345

**Twin Undersink with Sediment and Aragon**

## \$375

**\$105**

**\$125**

Our NEW Faucets feature an LED indicator that turns from BLUE to RED after one year of usage to advise that filters need replacing.

## \$99

### INSTALLATION

If drilling through stone is required, an extra \$50 will be charged for the diamond drill bit and insurance fee.

- ▶ **Sediment Filter:** 100% Polypropylene Triple Gradient Sediment Filter.
- Captures sand, dirt, rust, algae, silt, mud and particles greater than 1 micron.
- The sediment filter will avoid premature blockages within the system and will extend the life span of the second stage filter.
- Certified by NSF 42 and FDA CFR Title 21.

- ▶ **Ceramic Filter:** Ultracarb Sterasyl® microfilter plus carbon block and lead removal media.
- Ceramic is made from natural materials; 80% less plastic waste than other available synthetic cartridge filters.
- Can be scrubbed and re-used when flow becomes slow.
- Laboratory Tested and Certified in UK. Doulton Filters are manufactured in UK.

- ▶ **Aragon Filter:** Aragon is a composite polymeric material presented as a single block with a bacteriostatic silver addition. It has long polymer chains that provide a porous strong structure for safe drinking water without flow reduction.
- Aragon combines mechanical; ion exchange, adsorption; and electric adsorption water filtration technologies.
- Laboratory Tested and Certified in Russia, USA, Italy and France. Aragon is designed and manufactured in Europe.

Our systems are installed under your existing kitchen sink and are supplied with a chrome faucet for filtered drinking water only.

If you do not want a separate drinking faucet, you can upgrade your kitchen tap and get a 3 Way Mixer Tap from \$315.

**WaterMark**  
AS/NZS 23448

Filters and Components are Laboratory Tested and Certified for Material Safety and Reduction Claim.
