Our NEW Faucets feature an LED indicator that turns from blue to red when filters need replacing.

Unlike an RO system, these systems will NOT reduce Total Dissolved Solids (TDS), or Calcium Hardness. If you are interested in a filter that removes TDS or hardness, consider our Reverse Osmosis (RO) systems.

If you do not want a separate drinking faucet, you can upgrade your kitchen faucet and get a 3 Way Chrome Mixer Tap for \$345\*.

3 Way Mixers have a long lever for hot and cold, and a short lever for only filtered water.

Instead of having a separate faucet for filtered water, consider having a 3 Way Mixer to avoid drilling a hole through your stone/wood bench.

In 3 Way Mixers there are separate tubes inside the faucet, so there's absolutely no mixing of sources.
