### 3 Way Mixers w/ Elongated Tip

Filtered Hot & Cold

Filtered Water (Short Lever)

Mixer Control (Long Lever)

3 Way mixers have a long lever for hot and cold, and a short lever for only filtered water.

In 3 Way Mixers there are separate tubes inside the faucet, so there's absolutely no mixing of sources.

Instead of having a separate faucet for filtered water, consider having a 3 Way Mixer to avoid drilling a hole through your stone/wood bench.

This faucet is Tested and Certified by NSF International against NSF/ANSI 42, 58 for materials and structural requirements
