

WaterMark

Certificate No.: 23448
 AS/NZS 3497:1998

5 YEARS WARRANTY

Components are Tested and Certified by NSF International under NSF/ANSI Standard 42 for material requirements only.

SPECIFICATIONS

Operating Pressure: 240-600 kPa
 Operating Temperature: 5-35°C
 Connects To: 1/2" Cold Water Line
 Membrane Flow Rate: 16 L/h
 System Outflow Rate: 3 LPM

Our reverse osmosis systems produce alkaline and mineralised drinking water (Bottled-like Water).

Our NEW Faucets feature an LED indicator that turns from blue to red when the filter needs replacing.

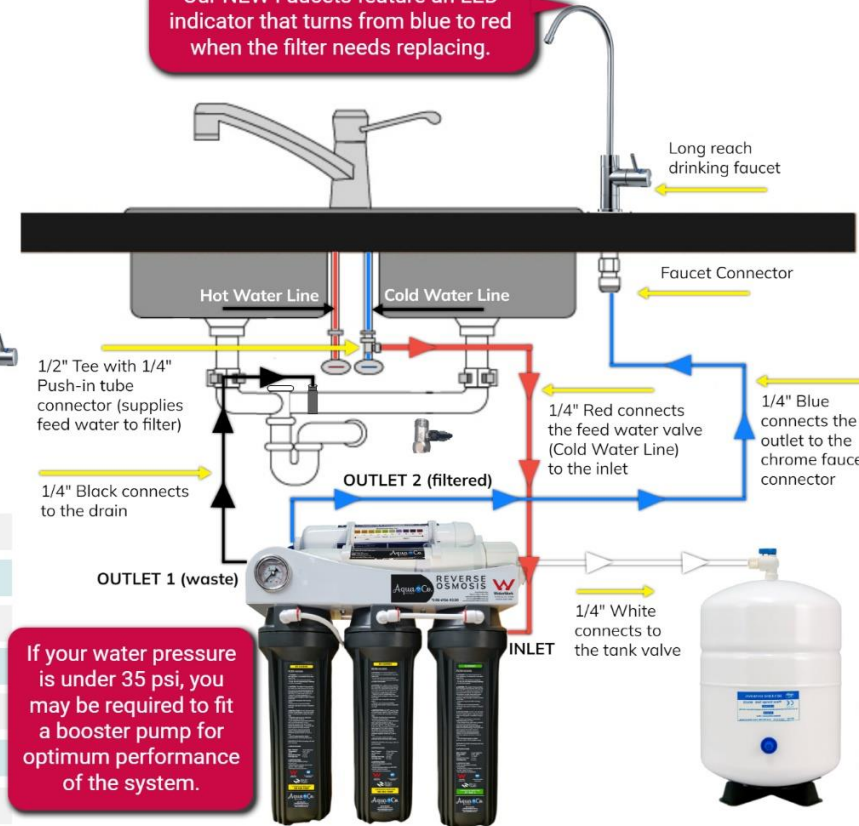

AquaCo Reverse Osmosis System

\$799

USA Reverse Osmosis System

\$950

If your water pressure is under 35 psi, you may be required to fit a booster pump for optimum performance of the system.

Our systems are installed under your existing kitchen bench and are supplied with a chrome faucet for your filtered drinking water and a 12 L Reverse Osmosis Tank, which holds up to 9 Litres.
12 L Tank Dimensions: 244 D x 366 H mm

If you do not want a separate drinking faucet, you can upgrade your kitchen tap and get a 3 Way Mixer Tap from \$345*.

430 H x 360 W x 200 D mm

USA Dupont Filmtec Membrane Made in the USA, John Guest Fittings Made in the UK, and Omnipure Filter Cartridges Made in the USA.
 Taiwan Components are made in High-Tech Facilities in Taiwan.

If a higher capacity is required, you can upgrade your 12 L Tank to a 18 L Tank for only \$50.
 18 L Tank Dimensions: 279 D x 368 H mm
 (The 18 L Tank holds up to 13 Litres)

The tank fills up with water coming from the membrane at a flow rate of 16 L/h* dependant on water pressure. This tank allows you to have up to 150 litres of water instantly* dependant on tank capacity.

If height is an issue, the system and tank can go laying down.

\$147 INSTALLATION

If drilling through stone is required, an extra \$50 will be charged for the diamond drill bit and insurance fee.

Instead of having a separate faucet for filtered water, consider having a 3 Way Mixer to avoid drilling a hole through your stone/wood bench.

This faucet is Tested and Certified by NSF International against NSF/ANSI 42, 58 for materials and structural requirements

COMPONENT

Certified to NSF/ANSI 61

3 Way mixers have a long lever for hot and cold, and a short lever for only filtered water.

Filtered Water (Short Lever)

Hot & Cold

Mixer Control (Long Lever)

In 3 Way Mixers there are separate tubes inside the faucet, so there's absolutely no mixing of sources.

Note: Our NEW Chrome 3 Way Mixers feature an LED indicator that turns from blue to red when the filter needs replacing.
