**Replacement Filters Bundle**

**Filter Cartridges are recommended to be replaced every year.** However, replacement frequency also depends on water quality and usage.

- Every Year
- Every 18 Months
- Every Two Years

**5 YEARS WARRANTY**

**CHOICE OF FILTERS**

Twin Undersink System w/ Sediment and Carbon  
**\$335**

Twin Undersink System w/ Sediment and Aragon  
**\$375**

Twin Undersink System w/ Fluoride and Aragon  
**\$450**

**\$85**

**\$125**

**\$209**

**SPECIFICATIONS**

Flow Rate: 3 LPM  
Connects To: 1/2" Cold Water Line  
Operating Temperature: 5-35°C  
Dimensions: 270 W x 370 H x 130 D mm

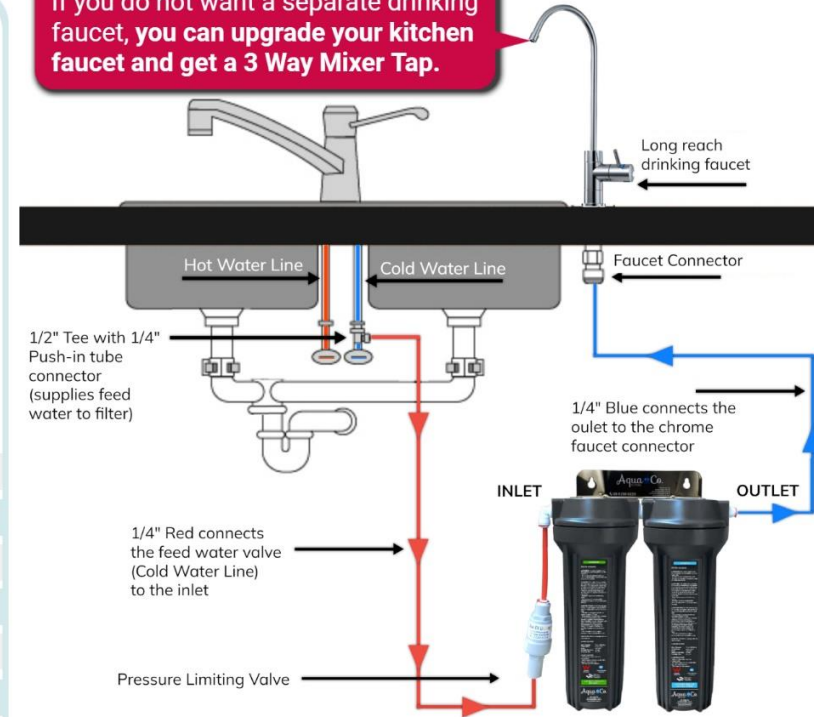

If height is an issue, the system can go laying down. This position won't affect its performance.

**\$147**

**INSTALLATION**

If drilling through stone is required, an extra \$50 will be charged for the diamond drill bit and insurance fee.

If you do not want a separate drinking faucet, you can upgrade your kitchen faucet and get a 3 Way Mixer Tap.

⚠ Unlike an RO system, these systems will NOT reduce Total Dissolved Solids (TDS), or Calcium Hardness. If you are interested in a filter that removes TDS or hardness, consider our Reverse Osmosis (RO) systems.

💡 Our NEW Faucets feature an LED indicator that turns from blue to red when filters need replacing.

**WaterMark**  
Certificate No.: 23448  
AS 3497:1998

**5 YEARS WARRANTY**

**UPGRADE TO 3 WAY TAP**  
to avoid drilling a hole through your stone/wood bench.

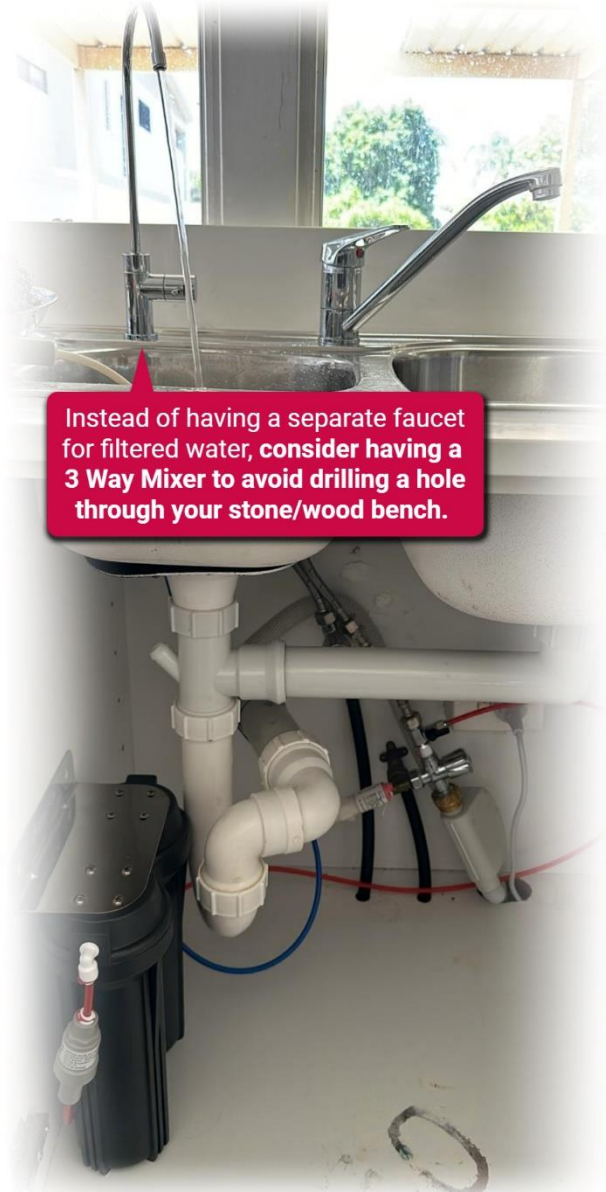

3 Way Mixers and Taps are Certified to NSF/ANSI 61 Section 9.

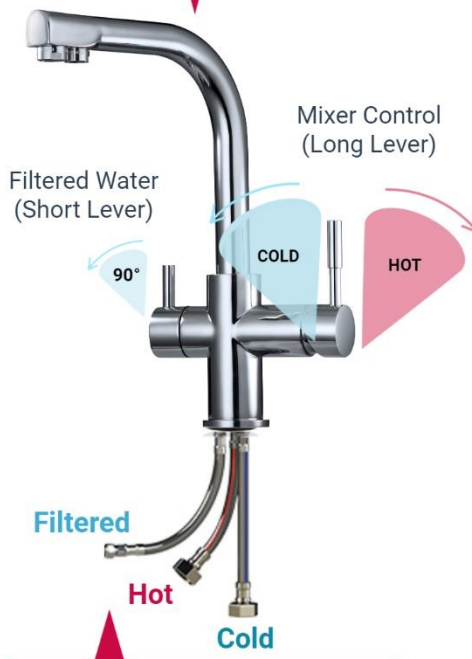

3 Way Mixers have a long lever for hot and cold, and a short lever for only filtered water.

In 3 Way Mixers, filtered water has an independent nozzle in the spout. Therefore, filtered and unfiltered water never mix.

Instead of having a separate faucet for filtered water, consider having a 3 Way Mixer to avoid drilling a hole through your stone/wood bench.

In 3 Way Mixers there are separate tubes inside the faucet, so there's absolutely no mixing of sources.
